

Minute for Mission

Provided by the Michigan region

The pastor collapsed in a store parking lot and was taken to the hospital. Subsequent medical examinations determined that he was suffering from an inoperable brain tumor.

Needless to say, this was devastating news for the congregation. The call went out to the Regional Minister who responded immediately, as they expected.

Support was given through presence, preaching, listening, and counsel to the church board.

Presence and support to the pastor and his wife at the hospital, in partnership with another pastor.

This is just one example of what giving to the Christmas Offering helps to make possible.
